

A-HAN2890 Fokker D.VII 30-60cc ARF

Hangar 9 brings this Great War legend to life as a remarkable giant-scale ARF with scale details to truly do the legendary Fokker D.VII justice. The model has been expertly built to exacting standards utilizing lightweight balsa and plywood. The result is an ARF model that goes together easily with outstanding appearance and friendly flying manners. Even the most discerning modeler will appreciate the exceptional level of details like molded machine guns, scale pilot figure, cockpit details and 8" scale tires, just to name a few. Shock-absorbing main landing gear takes most of the bounce out of grass strips. The Fokker D.VII is designed to accommodate a variety of 30cc to 60cc 2- or 4-stroke gas engines, or brushless electric outrunner motor. All hardware for the recommended power system

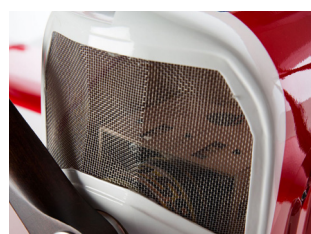

options is included so assembly is easy and you can get in the air faster. A large top-hatch makes any maintenance and battery changes simple, while providing easy access to electronic components.

Whether this is your first giant scale World War I aircraft or the perfect complement to your scale collection, you won't find a replica Fokker D.VII that better captures the spirit of this Great War Legend!

The genuine UltraCote covering replicates scale-inspired colours with distinction.
