

A-EFL15950 / A-EFL15975 Cirrus SR22T 1.5m with Smart BNF Basic / PNP

Cirrus Aircraft describes the company's origins as "little more than the boyhood dream of two brothers in a Wisconsin barn." But from that humble start, a revolution in general aviation was born. In 2020, Cirrus Aircraft again redefined the aviation experience with the G6 SR Series — "the Smartest, Safest, Most Innovative general aviation aircraft a pilot could desire." Now, E-flite presents the Smartest, most powerful and most fun to fly scale model of this latest Cirrus marvel. It has all the features, technologies, capabilities and performance that today's RC pilots expect, including a Spektrum Avian Smart ESC that delivers a variety of real-time power system related telemetry data to the pilot via compatible receivers and transmitters. Like the full-scale version, the E-flite Cirrus SR22T 1.5m is a smarter aircraft for smarter flying!

FEATURES

- Updated and upgraded to offer improved scale-like and sport flying, higher speed and higher energy aerobatic capabilities
- Specially tuned motor compatible with 3S and 4S batteries without the need for modifications or upgrades
- Popular 3S and 4S 2200-3200mAh batteries deliver excellent performance and flight times
- 60-amp Spektrum Avian Smart ESC provides real-time battery voltage, motor RPM and other data via compatible receivers and transmitters
- Rugged landing gear with oversized tires for operation from a variety of surfaces including grass
- Functional slotted flaps for shorter takeoffs/landings and improved low-speed handling
- 5-channel control with six (6) factory-installed servos and linkages
- Factory-painted and finished in a scale, high-visibility trim scheme
- Factory-installed LED interior cabin, landing, and navigation lights
- Lightweight yet durable composite-reinforced EPO construction
- Fast and easy bolt-together assembly
- Easy to install/remove two-piece wing and stab

NEEDED TO COMPLETE

- **BNF Basic** - Full-range 5-6+ channel Spektrum DSMX transmitter
- **PNP** - Full-range 5+ channel transmitter and receiver
- 3S 11.1V or 4S 14.8V 2200-3200mAh LiPo with EC3 or IC3 Connector
- Compatible LiPo charger

IN THE BOX

- (1) E-flite Cirrus SR22T 1.5m with:
 - (1) 60A Spektrum Avian Brushless Smart ESC
 - (1) Brushless Outrunner Motor
 - (6) Servos
 - (1) Spektrum AR637TA 6-Channel Receiver (BNF Basic version only)
- (1) Product Manual
