

A-EFLU7950 UMX Timber X BNF Basic

The UMX Timber X is a scaled-down, ultra-micro version of the extremely popular Timber X 1.2m — and it's one of the most-requested models in E-flite history. The unique wing design combines the STOL capabilities of the Turbo Timber with oversized control surfaces and a 3S compatible power system to deliver an even wider flight envelope. The UMX Timber X also comes equipped with LED landing, navigation, and strobe lights, and provides real-time battery voltage and other telemetry data to compatible Spektrum AirWare equipped transmitters. Because of its ultra-micro size, the UMX Timber X can be flown outdoors in many yards, parks, and sports fields, or even indoors in gymnasiums and other suitable spaces. It's a great choice for a wide range of intermediate to experienced pilots, and offers a "mild to wild" flying experience that no other model can touch!

FEATURES

- Incredible Short Takeoff and Landing (STOL) plus sport flying and 3D aerobatic capabilities
- Uniquely capable and versatile so it can be flown in more places and smaller spaces
- Enlarged and oversized control surfaces for added control and capabilities
- Full-span ailerons for maximum authority and optional use as flaperons
- 3S compatible motor for unlimited vertical and 3D performance
- Compatible with the Spektrum DXS transmitter included with many RTF models
- Real-time battery voltage telemetry with compatible Spektrum transmitters
- Spektrum receiver with industry-leading 2.4GHz DSMX technology
- Easy to fly with optional-use SAFE Select flight envelope protection
- Unmatched stability and locked-in feel of AS3X technology for smoother performance
- Strengthened control horns and ball-link equipped linkages for improved control
- Functional and factory-installed LED landing, navigation, and strobe lights
- Oversized tires for the ability to take off and land on a variety of surfaces
- Optional floats (sold separately; EFL-UA1190) for flying from water
- Fully factory-assembled and ready to fly right out the box

NEEDED TO COMPLETE

- Full-range 5+ channel Spektrum DSMX/DSM2 compatible transmitter
- 3S 11.1V 280–350mAh LiPo with JST-RCY Connector
- Compatible LiPo charger

IN THE BOX

- (1) E-flite UMX Timber X with:
- (1) Brushless Outrunner Motor
- (4) Linear Servos
- (1) Spektrum Receiver with (1) brushless ESC
- (1) Product Manual
