

**A-BLH4400 150 FX RTF**

The Blade 150 FX is the perfect indoor and outdoor helicopter for beginner pilots ready to try single-rotor machines from coaxial helicopters and multirotor drones. The 150 FX brings an intimidation-free and easy experience for new pilots looking for a new challenge. Its fixed-pitch, simple rotor head, and six-axis control system let pilots enjoy a high level of stability and efficiency even in an outdoor environment. From the lightweight and impact-resistant frame to the easy repairs, this heli makes learning to fly easy. LEDs adorn each arm, making orientation easy to maintain, and it includes crash kit parts to help get you back in the air if anything is damaged. Additionally, the 150 FX is below the 249-gram allowance, so this package will be one of the largest Ready-to-Fly Heli Model to include everything you need, including the flight battery, USB charger, and transmitter.

The 150 FX comes with everything you need in one box. Charge the included flight battery, bind to the included transmitter, and take to the skies. The included 6-channel transmitter features with functionality that makes choosing high or low dual rate sensitivity easy.

**FEATURES**

- **Ready-To-Fly:** The 150 FX comes with everything you need in one box. Charge the included flight battery, bind to the included transmitter, and take to the skies.
