

**C-AXI05001T1/T2 1/6 SCX6 Honcho 4WD RTR Red/Sand**

The 1/6 scale Axial SCX6 platform has taken RC rock crawling into a whole new dimension, armed with a huge amount of detail and high-performance functionality. Now, Axial has expanded the SCX6 lineup with an exciting 1/6 scale version of the insanely popular Honcho. Whether you're a fan of the original SCX10 Honcho, a rock crawling enthusiast, a large-scale aficionado, or all of the above, the Axial SCX6 Honcho 4WD RTR is sure to please. It's the biggest, baddest RC rock crawler ever!

Measuring over 2-1/2 feet long and topped off with a modernized Honcho body, the Axial SCX6 Honcho 4WD RTR is the rig that will take your rock crawling and climbing adventures to an exciting new level. Just add your choice of suitable battery and aim for the top!

**FEATURES**

- 1/6 scale chassis design is based on the proven SCX10 III
- Metal gear transmission comes configured for two speeds with high and low gears
- Durable three-link front and four-link rear suspension provides optimal handling
- AR90 axles feature metal ring and pinion gears
- Replica V8 engine cover adds to the realistic appearance
- Spektrum DX3 2.4GHz DSMR radio provides superior range, response, and interference resistance and is compatible with Smart technology
- Spektrum Firma 120A Smart Brushless Crawler ESC feeds telemetry data to the DX3 transmitter in real time
- Includes a powerful Spektrum S905 high-torque, large scale steering servo (also accepts larger 1/5 scale servos with the included adapter)
- Modernized Honcho body with rear tube cage includes interior detail
- High-traction, 7" tall, officially licensed Falken Wildpeak M/T tyres are mounted on officially licensed Primm Black Rhino beadlock wheels
