

C-ARA8406 1/8 TLR Tuned TYPHON 6S 4WD BLX Buggy RTR

Loaded with high-end parts for improved strength, handling, and long-term durability, the 1/8 scale ARRMA TLR Tuned TYPHON 4WD Race Buggy gives bashers the perfect platform for entering competitive racing. It has the chassis tuning capabilities of a race spec buggy and arrives ready-to-run, with proven Spektrum radio and brushless power systems installed. The TLR Tuned TYPHON 4WD Race Buggy RTR comes prepared to hit the racetrack or the bash spot — you decide which!

The TLR Tuned TYPHON 4WD Race Buggy also features a heavy-duty drivetrain that holds up to extreme bashing and high-speed racing, with all-metal diff outdrives and gearbox internals plus durable steel driveshafts throughout. Its extra-strong wheel hubs support low-drag wheels on which ARRMA engineers have mounted multi-terrain, race compound dBoots EXABYTE tyres for next-level grip. A Race Spec tunable rear wing helps to keep the tyres and buggy grounded, contributing to confident control and responsive handling at high speeds.

FEATURES

- The ultimate 1/8 scale ARRMA buggy out of the box, with many laser-etched TLR Tuned parts.
- Ready for racing or bashing with factory-installed Spektrum electronics.
- Standout ARRMA body with an exclusive paint scheme of Race Spec colours.
- Powerful 4S and 6S LiPo capable Spektrum brushless power system.
- Spektrum SLT3 3-channel 2.4GHz radio and SR315 dual protocol receiver.
- Spektrum S652 steel gear waterproof digital servo with 265 oz-in of torque @ 7.4V.
- TLR Tuned 7075-T6 aluminium parts chassis, shock towers, and steering rack.
- TLR Tuned adjustable suspension hangers.
- TLR Tuned black TLR branded shocks with machined tapered shock pistons, machined shock guides and X-ring Seals, attached to the shock towers with EXB shock standoffs.
- Black-anodized aluminium motor mount, servo mount, and 17mm wheel hexes.
- Race Spec tunable rear wing mounted on a high rear wing mount.
- Race compound dBoots EXABYTE tyres.

IN THE BOX

- (1) ARRMA TLR Tuned TYPHON 4S 1/8 4WD Race Buggy RTR
- (1) Spektrum Firma 150A Smart Waterproof ESC
- (1) Spektrum Firma 4074 2050Kv Brushless Motor
- (1) Spektrum 2.4GHz SLT3 3-Channel Transmitter
- (1) Spektrum SR315 3-Channel Dual Protocol Receiver
- (1) Spektrum SPMS652 Waterproof Metal-Geared Digital Servo
- (4) AA Batteries for the Transmitter
- (1) Product Manual

NEEDED TO COMPLETE

- (1) 4S or 6S LiPo Battery with EC5 or IC5 Connector
- (1) LiPo Battery Charger
