

A-EFLU4350 UMX P-51D Voodoo BNF Basic with AS3X and SAFE Select

The E-flite UMX P-51D Voodoo is an ultra-micro version of the famous racer based on an updated and upgraded version of the original UMX P-51D BL that's even easier and more fun to fly than ever before!

The P-51D-25-NA (original serial number 44-73415) was built in 1944 by North American Aviation at Inglewood, California, for the United States Army. After passing into private ownership in 1958, it first raced at the Reno Air Races as #55 "Pegasus." It was renamed Voodoo and flew in the 1998 Reno Air Races. It won the Unlimited Class in 2013, 2014, and 2016 and is now part of the Planes of Fame Air Museum collection in Chino, California. The E-flite UMX P-51D Voodoo replicates the famous racer with striking detail, impressive handling, and outstanding performance. The 2S and 3S compatible power system plus exclusive Spektrum AS3X and SAFE Select technologies make for an incomparable Voodoo flying experience.

FEATURES

- The most affordable, convenient, and easiest-to-fly P-51 racer model yet
- More powerful 2S and 3S-compatible ESC and motor with 4-blade prop
- Works with the Spektrum DXS transmitter included with many RTF models
