Spektrum InterLink DX Simulator Controller Features

- Modelled after Spektrum transmitters including all standard switch locations and functions
- Patent-pending gimbal design with spring configuration switch for easy Mode 1, 2, 3, or 4 selection and operation
- Exclusive Reset/Rewind button for replaying your best manoeuvres or resetting after crashes
- Easy and convenient control of most simulator functions right from the controller
- 15-channel capability for effortless control of all available functions
- Prevents wear and tear on your field transmitter

Minimum Recommended System*

- Windows 8, Windows 10 OR Windows 11**
- Intel Pentium 1.0GHz or equivalent
- 512 MB RAM
- 10 GB Hard Drive Space
- 3D Accelerated Video with:
 - 32 MB Dedicated Video Memory
 - Full DirectX 9 compliant (Shader Model 2.0 or better)
- Internet connection required to download the Steam Client & RealFlight software
- Spektrum InterLink DX Simulator Controller, a Spektrum wireless sim dongle plus a compatible DSM2/DSMX equipped transmitter, a RealFlight compatible controller, or other compatible joystick

Optimal System

For Best Graphical Performance:

- Dual Core 2.4GHz CPU
- 2 GB RAM
- 3D Accelerated Video with: 512 MB dedicated video memory

Multiplayer Requirements:

- Broadband Internet connection
- Computer microphone for voice chat

InterLink DX Controller Requirements:

- USB Port
- Compatible FM or FM-selectable transmitter (if using the interface mode)***

VR Requirements:

- Compatible with some VR sets (available separately). Check manufacturer’s requirements for VR system use
- Works with both the Oculus Rift and HTC Vive VR headsets

FEATURES

- A fresh and modern user interface that’s even easier and more intuitive to use, virtually eliminating the need to use a mouse or keyboard with the InterLink DX controller
- More than a dozen of the newest and most popular ultra micro, sport, scale, EDF and trainer aircraft from E-flite, HobbyZone and Hangar 9 plus multiple helicopters from Blade
- Fly at the newest PhotoField – the main flying site from Triple Tree Aerodrome, home of the world-famous “Joe Nall” and other events
- More than 100 additional aircraft plus dozens of 3D fields and PhotoFields previously only available separately via Expansion Packs
- Access to new models and fields released quarterly (starting in early 2023) for purchase à la carte, in money-saving content packs, or with yearly season passes
- Additional Virtual Flight Instructor lessons for new pilots learning to fly with the HobbyZone AeroScout 1.1m
- Industry-leading True-To-Life physics that make every flight more lifelike
- A simple and intuitive interface for zero learning curve, zero hassle, and more fun
- More than 300 aircraft including airplanes, helicopters, drones, and more

NEEDED TO COMPLETE

- Compatible PC laptop or desktop with Windows 8, Windows 10 or 11
- Internet connection to download the Steam Client and RealFlight Evolution software

IN THE BOX

- (1) Spektrum InterLink DX Simulator Controller
- (1) RealFlight Evolution Steam Code (on card)
- (1) RealFlight Evolution Installation Guide

** Administrator access required
 *** Adapter card/cable set available separately (RFL1015) for use with the InterLink DX that will make it compatible with the trainer jacks on most Futaba, all JR and Spektrum radios
