- G-PRO10213-14** 1/10 Mickey Thompson Baja Pro X G8 F/R 1.9" Crawler Tyres (2)
- G-PRO10213-03** 1/10 Mickey Thompson Baja Pro X Predator F/R 1.9" Crawler Tyre(2)
- G-PRO10203-14** 1/10 Mickey Thompson Baja Pro X G8 Front/Rear 2.2" Tyre (2)

This is a pair of Mickey Thompson Baja Pro X 1.9" Crawler Tyres. Pro-Line is proud to announce our first licensed 1.9" tyre from Mickey Thompson Tyres, the Baja Pro X! It is a competition-proven extreme terrain tyre perfect for your 1.9" rock buggy or crawler.

Coming in at a massive 4.85" tall x 2" wide, this is one of the largest 1.9" tyres Pro-Line has ever made! Molded in your choice of our legendary G8 or Predator compounds, all the details of this gnarly tyre are captured in perfect 1/10 scale detail: from the Tread Biter cleats for added traction to the Mud Scoops for added cleaning power, to the Massive Sidebiters and angled shoulder scallops for ultimate side grip. Symmetric directional tread pattern provides excellent traction and cleaning power as well.

For the ultimate upgrade to your Capra or SCX-10, combine the Baja Pro Xs with our 1.9" Holcomb bead-loc wheels (PRO280903) and Dual Stage 1.9" Foams (PRO617400). Just like the full-size Baja Pro X tyres, Pro-Line tyres are proudly Made in the USA!

**Holcomb 1.9" 12mm Bead-Loc Wheels**

Introducing an innovative wheel design from Pro-Line: the Holcomb! Give your 1.9" scale crawler a unique, retro-inspired look. We've taken our easy-to-assemble, 3-piece plastic wheel design and flipped it inside out: the outer 6-spoke ring now bolts to the inner wheel face with a 12mm hex. The Holcomb is a direct fit for Pro-Line's incredible list of 1.9" Crawling Tyres. Get your very own set of Pro-Line Holcomb 1.9" Wheels today!

**Applies to G-PRO10213-10 Only**

16.12.2022
