

BNF BASIC PNP PLUS-N-PLAY

BUILT WITH SAFE & SMART

A-EFL013550 / A-EFL013575 Carbon-Z T-28 Trojan 2.0m BNF Basic / PNP

The E-flite Carbon-Z T-28 Trojan 2.0m has been updated and upgraded to be the Smartest and easiest-to-fly large-scale model of the ever-popular T-28 yet! Updated and upgraded with Smart electronics, more durable and reliable retracts, LED landing and navigation lights, plus a fully painted finish to deliver a “giant scale” warbird experience you simply can’t get from any other model. Its legendary flight performance makes it easy to fly, even by low-time pilots who have only flown smaller warbird models, while also offering plenty of capability for even the most demanding pilots. That makes it a perfect choice for intermediate to experienced pilots interested in a convenient, capable, and easy to fly large-scale model of one of the most popular and recognizable military trainer aircraft ever!

FEATURES

- Updated with Smart electronics, more durable and reliable retract units, LED navigation, and landing lights. Plus, a fully painted trim scheme
- Convenient top hatch and battery compartment to fit 6S 3200-7000mAh batteries for a wide range of performance and flight time options
- 70-amp Spektrum Avian Smart Lite ESC provides real-time data via compatible receivers and transmitters
- Optional-use motor reversing with compatible 7+ channel transmitters*
- Seven factory-installed metal-gear servo linkages
- Easy to install/remove two-piece wing and stabs for convenient storage and transport
- Functional flaps for shorter takeoffs/landings and improved slow-speed performance
- Wide-stance tricycle gear and steerable nosewheel offer easy ground handling
- Operational electric retracts, including scale-like strut covers and doors
- Functional and factory-installed LED landing and navigation lights
- Fully painted finish plus decals so you can customize the trim scheme
- Lightweight yet durable Carbon-Z composite-reinforced EPO construction
