

**C-LOS03029T1/T2 1/10 RZR Rey 4WD Brushless RTR Polaris / Fox**

Officially licensed by Polaris and scaled after its top-of-the-line SxS, the ready-to-run Losi Polaris RZR Pro R is built on the RZR Rey chassis — an evolution of the highly successful Losi Baja Rey chassis. Until now, the Rey was available only with a front independent and rear solid axle suspension. For the RZR Rey, the rear suspension has been redesigned true to scale with a new independent rear trailing arm setup. The Polaris RZR Pro R looks and handles like the real thing, with superior handling over rough terrain.

Because of its 1/10 scale size and 4-wheel drive, the Polaris RZR Pro R handles a wide range of terrain. To create a realistic scale desert environment, all you need are some small rocks, sand, dirt, weeds, and bushes. You can even take it with you to the dunes. Add some sand tyres and it's a miniature roost throwing machine!

**FEATURES**

- Officially licensed by Polaris and designed after their top-of-the-line RZR Pro R wide open model.
- New RZR Rey independent rear trailing arm suspension provides superior cornering over rough terrain.
- Standard 4-clip body removal allows easy chassis access for battery replacement and service.
- Includes officially licensed BFGoodrich KM3 tyres on officially licensed Raceline A93 Podium wheels.
- Bright LEDs in front and rear light buckets add more realism after dark.
- Adjustable long-travel shocks soak up the energy of big jumps and bumps.
- Metal-gear transmission and differentials are sealed against the elements and engineered to handle punishing terrain.
- RZR Rey 3mm aluminium chassis plate with 2.5mm upper deck takes on fast, rough racing — and asks for more!
- Factory-installed Spektrum brushless power system handles a 2S or 3S LiPo battery (not included) and delivers speeds of 45+ mph.
- Included Spektrum DX3 radio features Active Vehicle Control (AVC) technology for high-speed stability.

**NEEDED TO COMPLETE**

- Compatible 2S-3S Battery and Charge

**IN THE BOX**

- (1) Losi Polaris RZR Pro R 1/10 Scale 4WD RTR
- (1) Spektrum DX3 3-Channel DSMR Radio Transmitter
- (1) Spektrum SR6200A DSMR 6-Channel AVC Receiver
- (1) Spektrum S614S Steel Gear Servo
- (1) Firma 130A Brushless Smart ESC
- (1) Firma 3800Kv Brushless Motor
- (4) AA Transmitter Batteries
- (1) Product Manual
