

A-EFL15750 / A-EFL15775 EC-1500 Twin 1.5m BNF Basic / PNP

The E-flite EC-1500 Twin is a groundbreaking aircraft that offers a unique flight experience for a wide range of pilots! This multi-motor model carries echoes of full-scale civil and military cargo transport aircraft but has an incredible range of capabilities and options no other airplane can match. Featuring 3S and 4S compatible power systems with custom 5-blade counter-rotating props, the EC-1500's flight envelope encompasses everything from slow and scale-like to sport flying and even aggressive 3D aerobatic capabilities! You can fly from paved, grass and dirt surfaces; from snow with the included optional-use skis; or from water using the optional float set (sold separately). It also includes factory-installed LED lights, a functional cargo door, and a fully painted finish you can customize with the included Ohio Air National Guard, Air Force, Army, Coast Guard, Marines, Navy, and other markings. It's also been upgraded with Smart electronics to offer more capabilities than ever before, including differential thrust, motor reversing, and real-time telemetry data!

FEATURES ☰

- High-power 3S and 4S compatible power systems with custom 5-blade counter-rotating props
- Updated design bolt-to-the-motor prop adapters for easier and more secure propeller installation
- The power to hover and for unlimited vertical performance when using 4S
- Oversized control surfaces with double-beveled hinge lines for added control and aerobatic capabilities
- Selectable size ailerons plus functional flaps that can travel both ways for optional use with crow and full-span aileron/flaperon/spoileron setups
- Eight factory-installed servos, including metal-gear servos on all surfaces and the functional cargo door
- Functional and factory-installed LED landing, navigation, and simulated strobe lights
- Magnetically secured nose cone can be removed for easy installation of GoPro Hero and similar HD action cameras (cameras sold separately)
- Separate FPV camera mounting position on top of the extremely large, magnetically secured top hatch (FPV camera/gear sold separately)
- Included decal sheets with Ohio Air National Guard, Air Force, Army, Coast Guard, Marines, Navy, and other markings

NEEDED TO COMPLETE +

- **BNF Basic** - 6-8+ channel Spektrum DSMX compatible transmitter
- **PNP** - 6+ channel radio and receiver
- 3S 11.1V or 4S 14.8V 3200-6400mAh LiPo with EC3 or IC3 Connector
- Compatible LiPo charger

IN THE BOX ✓

- (1) E-flite EC-1500 Twin 1.5m with
- (1) Spektrum Servo
- (7) Spektrum Metal-Gear Servos
- (2) Spektrum BL Outrunner Motors
- (1) Avian Dual 40A BL Smart Lite ESC
- (1) AR8360T 8-Channel Receiver*
- (1) Product Manual

* Applies to BNF Basic Version Only
