

C-ARA5810V2T1 1/5 OUTCAST 4X4 8S BLX EXB Brushless Stunt Truck RTR, Black

For stunt and bashing performance at its biggest and best, the ARRMA OUTCAST 1/5 8S Stunt Truck has no equal. In this new ready-to-run version, it's better than ever before! Not only is the OUTCAST 1/5 8S EXB Stunt Truck RTR loaded with EXtreme Bash parts for even greater durability, but it also arrives with higher-powered Spektrum 8S LiPo-capable brushless electronics already installed — all at an astonishingly affordable price.

Punchy and powerful, the new Spektrum 8S-capable brushless system features a massive 5687 FIRMA 1100Kv brushless motor with a huge 56mm diameter and 10% more torque than the previous OUTCAST 8S RTR. The new motor is paired with a Spektrum S6510 steel gear servo that puts out 820 oz-in of torque at 8.4V — nearly 50% more muscle than its predecessor. The new RTR package also includes a Spektrum FIRMA 160A V2 Smart ESC and Spektrum DX3 3-channel 2.4GHz DSMR radio system, with Spektrum AVC technology built-in to keep the huge power under control.

FEATURES

- Engineered tough with EXtreme Bash 7075-T6 aluminium parts
- Bigger, tougher shocks, linkages, turnbuckles, and more
- Aggressive new EXB matte-and-gloss colour scheme
- Updated 8S LiPo capable Spektrum brushless power system
- EXB 7075 T6 5mm thick CNC aluminium laser-etched chassis plate
- EXB Red-anodized CNC aluminium front brace mount
- Spektrum FIRMA 1100Kv brushless motor with 10% more torque
- Spektrum S6510 steel gear waterproof servo with 47% more torque
- Spektrum DX3 2.4GHz DSMR radio
- SR6200A DSMR receiver with AVC
- Updated Spektrum FIRMA 160A V2
- New big block dBoots Back-Flip BB tyres
- Front bumper with impact-absorbing design
- All-metal diff outdrives and gearbox internals
- Durable steel driveshafts
- Durable wheel hubs
- Easy-access waterproof electronics module
- Centre body support and brace for maximum durability
- Strong composite chassis side pods
- Wheelie bar

IN THE BOX

- (1) 1/5 OUTCAST 8S EXB 4X4 RTR
- (1) Spektrum DX3 DSMR radio
- (1) SR6200A receiver with AVC
- (1) S6510 steel gear waterproof servo
- (1) FIRMA 1100Kv brushless motor
- (1) FIRMA 160A V2 Smart ESC
- (1) CNC machined aluminium 24mm wheel wrench
- (1) Product Manual

NEEDED TO COMPLETE

- (2) 3S or (2) 4S LiPo Batteries with EC5 or IC5 connector
- (1) Compatible Battery Charger
- (4) AA batteries for Transmitter
