

A-EFL077500 Viper 70 EDF Jet BNF Basic w/ AS3X and SAFE Select

The full-scale Viper Jet was designed to deliver fighter-jet looks and performance with low-wing prop-driven airplane handling so more pilots could enjoy flying a jet. The E-flite Viper 70mm EDF is true-to-form both in its appearance and how it delivers a high-performance jet experience like no other, whether you've flown many jets before or even if it's your first "full-house" jet model. It delivers incredible speed, vertical performance and aerobatic capability while also being easier to take off and land than other similar class models – especially because this Bind-N-Fly Basic model is equipped with exclusive AS3X and SAFE Select technologies. This updated and upgraded version also includes a higher performance Spektrum motor and 85A Avian Smart Lite ESC for added speed and vertical performance, plus delivers real-time telemetry data via the AR631 receiver, along with softer tyres for easier landings!

FEATURES

- Updated and upgraded with a higher performance power system, Smart electronics, shock-absorbing struts and softer tires, plus a higher visibility colour scheme
- Expertly engineered and optimized ducting for incredibly efficient performance without "cheater" holes
- 12-blade 70mm fan delivers excellent top speed and vertical performance plus turbine-like sound
- Upgraded and factory-installed 6S-compatible 3060-1900Kv brushless inrunner motor plus 85A ESC
- Popular 6S 3200-4000mAh 30+C batteries deliver excellent performance and flight times
- 85-amp Spektrum Avian Smart Lite ESC provides real-time battery voltage, current draw, RPM and other data - with Smart and non-Smart batteries - via compatible transmitters
- Optional-use thrust reversing to help shorten rollout after landing and for other special ground handling capabilities
- Functional and factory-installed flaps for shorter takeoffs and landings plus improved slow-flight performance
- Steerable nose wheel and electric retracts with upgraded shock-absorbing struts for operation from a variety of surfaces
- Softer tyres to reduce bouncing when landing on paved and other hard surfaces

NEEDED TO COMPLETE

- Full-range 6-8+ channel Spektrum DSMX compatible transmitter
- 6S 22.2V 3200-4000mAh 30+C LiPo with EC5 or IC5 Connector
- Compatible LiPo charger

IN THE BOX

- (1) E-flite SR-71 Blackbird EDF with:
- (1) Avian 85A Smart Lite Brushless ESC
- (1) Spektrum 1900Kv Inrunner Motor
- (8) Digital, Metal-Geared Servos
- (1) Spektrum AR631
- (1) Product Manual
