

C-LOS01024T1/T2 1/16 Mini-B Brushless 2WD Buggy RTR Red/Blue

Ever since introducing the first Mini-T stadium truck in 2003, Losi has been setting the bar higher and higher for mini-size RC racing performance. While growing numbers of Losi mini RC fans honed their skills on makeshift tracks built in their driveways and backyards, Losi kept pushing the limits of what mini RC vehicles can do — adding suspension engineering from the top-of-the-line TLR 22, for example, and installing powerful brushless electronics. It has all led to this, the Losi Mini-B 2WD brushless racing buggy. Versatile, affordable, fast, and fun, the Mini-B makes an excellent starting point for any aspiring RC racer.

The Mini-B chassis is tunable and option parts are also available, so as your racing experience grows, you'll be able to fine-tune your mini buggy's performance to keep seeing better racing results. Make your move into RC racing today with the Losi Mini-B 2WD brushless racing buggy.

FEATURES

- Brushless powered
- Fully ready-to-run
- Track-ready with refined features
- Mid-motor chassis configuration
- Strong aluminium chassis
- Threaded oil-filled shocks
- Spektrum 2-in-1 brushless motor/ESC
- High-capacity Spektrum Smart G2 810mAh 2S LiPo battery
- Spektrum Smart G2 2S LiPo USB-C battery charger
- Metal gear transmission
- Big Shot rear tyres and Wide Body Rib front tyres
- Full ball bearings (less steering)
- Spektrum SLT2 2.4GHz radio and SR315 receiver
- Spektrum SX108 Micro Digital Metal Gear Servo

NEEDED TO COMPLETE

- USB Power Adapter with QC 2.0/3.0 18W+

Everything included with LOS01024T1/T2

IN THE BOX

- (1) 1/16 Losi Mini-B 2WD Brushless Racing Buggy RTR
- (1) Spektrum SLT2 2.4GHz Transmitter
- (1) Spektrum SR315 2.4GHz Dual Protocol Receiver
- (1) Spektrum SX108 Steering Servo
- (1) Spektrum FIRMA 6000Kv Brushless Motor & ESC 2-in-1 Combo
- (1) Spektrum Smart G2 2S LiPo Battery
- (1) Spektrum Smart G2 2S LiPo USB-C Battery Charger
- (4) AA Transmitter Batteries
- (1) Mini-B 2WD Brushless Product Manual
