

The Champion of Aerobatic Trainers!

A-EFL09250 / A-EFL09275 Decathlon RJG 1.2m BNF Basic / PNP

The E-flite Decathlon RJG 1.2m is one of the most capable and best-handling models of the iconic aerobatic trainer ever! It's a replica of the Decathlon that RJ Gritter (RJG) flies in airshows across the United States and sports a classic yet modernized red, white, and blue trim scheme. It also features a variety of scale details including functional LED landing and navigation lights, wheel pants, and wing struts. The one-piece wing is easy to install and remove thanks to hands-free connections and thumbscrews, and the struts snap into/out of place without the need for any fasteners or tools – though it's already conveniently sized to be easy to store and transport without disassembly! Digital and metal-gearred servos along with ball-link equipped linkages provide precise and reliable control for smooth sport to aggressive aerobatic flying. The 3S and 4S compatible power system features a 45-amp Spektrum Avian Smart Lite ESC, and the BNF Basic version is equipped with an AR631 receiver to deliver real-time telemetry data along with AS3X and optional-use SAFE Select plus motor/thrust reversing. All these details and features combine to deliver a very convenient and extremely capable scale model that's a great choice for low-time and intermediate to experienced pilots!

FEATURES

- A scale model of the iconic full-scale aerobatic trainer that's a replica of the Decathlon RJ Gritter flies
- Specially tuned motor compatible with 3S and 4S batteries without the need for modifications or upgrades
- Popular 3S and 4S 2200–3200mAh batteries deliver excellent performance and flight times
- 45-amp Spektrum Avian Smart Lite ESC provides real-time battery voltage, current, RPM, and other data via compatible receivers and transmitters
- Optional-use motor reversing for special ground handling
- Easier to fly with innovative and optional-use SAFE Select flight envelope protection
- The unmatched stability and locked-in feel of exclusive AS3X technology
- Four factory-installed digital and metal-gearred servos
- Tool-free wing assembly with quick-release struts for convenient storage and transport
- Fast and easy bolt-together assembly – no glue or special tools required
- Convenient top-mounted hatch provides easy access to the battery
- Functional LED landing/navigation lights for added scale looks
- Simple and durable aluminium landing gear with wheel pants

IN THE BOX

- (1) E-flite Decathlon RJG 1.2m
- (1) Spektrum BL Outrunner Motor
- (4) Spektrum Digital MG Servos
- (1) Avian 45A Smart Lite Brushless ESC
- (1) Spektrum AR631 Receiver*
- (1) Product Manual

NEEDED TO COMPLETE

- **PNP**
Full-range 4+ channel radio & receiver
- **BNF Basic**
Full-range 4–5+ channel Spektrum DSMX compatible transmitter
- 3S 11.1V or 4S 14.8V 2200–3200mAh LiPo with EC3 or IC3 Connector
- Compatible LiPo charger
