

SMALL SCALE BASHING!

C-ARA2106T1/T2 1/18 Typhon GROM 4WD Buggy RTR Blue+Silver / Red+White

ARRMA takes small scale RC buggy performance to a whole new level with the fast, tough, and affordable TYPHON GROM RTR. Agile and responsive like the 1/8 scale original, the tiny TYPHON GROM delivers a big dose of genuine ARRMA performance and durability. But it's small enough to take along with you almost anywhere for amped-up ARRMA bashing whenever the urge strikes.

If you're a first-time RC basher, the Spektrum 2.4GHz SLT2 transmitter helps you learn control skills safely by limiting maximum speed to 50% or 75% until you're ready to handle it all. Recharging the included Spektrum Smart 2S LiPo battery is also worry-free. Just plug it into the supplied Spektrum S10 Smart G2 Mini 2S USB-C Charger with the attached IC2 connector. Smart technology takes care of the rest. In about an hour, your battery is safely recharged and ready for another round of fun.

FEATURES

- High-traction 4WD drivetrain
- Awesome TYPHON buggy styling with two colour choices
