

Flyzone Rapide™ Brushless Glider Rx-R

The glider for easy cruising or cutting loose!

The Rapide Rx-R is ideal for the intermediate pilot who's mastered the basics and ready for new excitement. Gentle and predictable handling makes it ideal for a relaxing day of everyday soaring, or an afternoon of pushing the limits of performance and flying skill.

Tough, lightweight construction gives it the strength and rigidity to stand up to high speeds and extreme, high-g aerobatics. A full-flying stabilizer reduces drag and improves aerodynamics.

The Rapide arrives finished, with a brushless power system and four micro servos already installed. Modelers can save by recycling an on-hand radio system for a perfect blend of ease and economy.

Features

- A tough, molded AeroCell airframe with carbon-fiber and fiberglass reinforcements
- Distinctive trim scheme in bold, bright colors
- 35-41-950kV brushless motor
- 40A brushless ESC
- 4 micro servos
- 13.5x7 in (343x178 mm) folding propeller

Specifications

Wingspan: 60 in (1525 mm)

Wing Area: 364 in² (23.5 dm²)

Weight: 2.75 lb (1250 g)

Wing Loading: 17 oz/ft² (52 g/dm²)

Length: 42.5 in (1080 mm)

Requires: 4+ channel radio, 3S 2200mAh LiPo battery and 3S LiPo balancing charger
