

A-EFL01650/A-EFL01675 Conscendo Evolution 1.5m BNF Basic / PNP

When the Conscendo was first introduced it was geared towards RC newcomers who wanted to teach themselves how to fly with a powered glider. A few years later an "Advanced" version that offered more power for soaring, sport flying and aerobatics became a favorite of many intermediate and experienced pilots alike. Now the E-flite Conscendo Evolution 1.5m evolves the design to be the most powerful, capable and fun to fly Conscendo yet! A stronger and stiffer airframe moulded from higher density EPO combines with the more powerful 3S and 4S compatible power system featuring a telemetry-capable ESC to deliver higher speeds and more aerobatic performance — while offering the same smooth sport flying and soaring capabilities the Conscendo has always been known for.

FEATURES

- Evolved to be the most powerful, capable and fun to fly Conscendo yet for soaring, sport flying, high speeds and high energy aerobatics
- Higher density EPO results in a stronger and stiffer airframe capable of more aerobatic performance and higher speeds
- More powerful 3S and 4S compatible brushless power system with outrunner motor and folding propeller
- 30A telemetry-capable ESC provides real-time ata (via compatible receivers and transmitters)
- Flight times up to 15-20+ minutes with a mix of power on/off flying using 3S 1300-2200mah or 4S 1000-2200mAh batteries
- 4-channel control including ailerons with four (4) factory-installed servos
- Easy to launch, fly and land
- Lightweight yet durable high-density EPO construction
- Easy to install/remove two-piece wing and stabs
- Fast and easy assembly - no glue required

NEEDED TO COMPLETE

- **BNF Basic** - Full-range 5+ channel Spektrum DSMX compatible radio
- **PNP** - 4+ channel radio and receiver
- 3S 1300-2200mAh or 4S 1000-2200mAh LiPo with EC3/IC3 Connector
- Compatible LiPo charger

IN THE BOX

- (1) E-flite Conscendo Evolution with:
 - (1) Brushless Outrunner Motor
 - (1) 30A Brushless ESC
 - (4) Servos
 - (1) AR637TA 6-Channel Receiver*
- (1) Product Manual
