

A-EFL17750/A-EFL17770 Viper 90mm EDF BNF Basic / ARF +

The full-scale Viper was designed to offer fighter-jet looks and performance along with the stability of a low-wing sport airplane so more pilots could enjoy flying a jet. The E-flite Viper 90mm EDF Jet model follows suit, both in its appearance and how it delivers the widest flight envelope possible — whether you've flown many jets before or even if it's your first large-scale jet model. We scaled up the extremely popular Viper 70mm EDF to create the first 90mm EDF powered and largest jet from E-flite yet! This larger version delivers the same excellent speed, vertical performance and aerobatic capabilities, plus it's still easy to take off, fly and land – especially when equipped with the exclusive AS3X and optional-use SAFE Select technologies included with the BNF Basic version. It's the perfect large-scale EDF choice for low-time and experienced jet pilots alike!

FEATURES

- A scale jet model with incredibly smooth sport airplane handling and amazing aerobatic capability
- Extremely wide performance envelope and speed range, capable of top speeds up to 120+ MPH
- Functional features including LED navigation and landing lights, nose gear door and flaps
- Reliable electric retracts with shock-absorbing, trailing-link struts for grass and other field operation
- Fits a wide range of 6S batteries from 4000-7000mAh, or up to two 6S 3200-5000mAh batteries in parallel (or series for ARF Plus version)
- Eight digital, metal-gear servos with ball-link equipped linkages and control surfaces with pinned hinges
- Removable winglets, plastic capped nose and intake ducts for durability
- No glue required for assembly
- Two-piece wing with convenient V2 hands-free connections for easy storage and transport
- Extremely durable, fully moulded and composite-reinforced EPO airframe

NEEDED TO COMPLETE

- **BNF Basic**
 - 6-7+ Channel Spektrum DSMX radio
- **ARF +**
 - Full-range 6+ channel radio and receiver
 - 90mm fan unit, motor and ESC
- **Both**
 - 6S 22.2V 4000-7000mAh 30+C LiPo with EC5 or IC5 Connector
 - (1) LiPo charger and Charging Bag

IN THE BOX

- (1) E-flite Viper 90mm EDF with:
 - (1) Spektrum Avian 130A Smart ESC*
 - (1) Brushless Inrunner Motor*
 - (1) 90mm EDF unit*
 - (8) Digital, Metal-Gear Servos
 - (1) Spektrum AR637TA Receiver *
- (1) Product Manual
