

A-EFL35500 Pitts S-1S BNF Basic with AS3X and SAFE Select, 850mm

The E-flite Pitts S-1S scale biplane is an officially licensed replica of the full-scale aerobatic icon that's expertly designed and equipped to deliver an exhilarating flight experience so enjoyable that every flight will be more fun than the last. Nothing compares to a Pitts biplane. Critics around the globe agree—flying one will spoil nearly all other aerobatic experiences. First flown almost 75 years ago, to this day the Pitts plans, kits, and finished biplanes that leave the Aviat Aircraft Company are all remarkably similar to the pioneering original design. The E-flite Pitts S-1S park flyer is a tribute to the distinctive Curtis Pitts design that combines an authentic appearance with great handling for incredible performance any RC pilot can appreciate.

FEATURES

- An Aviat Aircraft Company officially licensed version of the iconic aerobatic design
- High-power, 3S- and 4S-compatible brushless outrunner motor and 40A ESC
