1/5-SCALE READY-TO-RUN

NOW WITH **SPEKTRUM DX3 RADIO**

# BIG BASHING

## C-LOS05020V2T1/T2 1/5 DBXL-E 2.0 Desert Buggy with Smart Fox / Losi

Known worldwide for their dominance in the gas 1/5 market, especially with the 5IVE-T 2.0, Losi has built the DBXL-E 2.0 to be cleaner and easier to use, but with performance and speed that outruns the competition. At home in any environment from dirt to pavement, wet or dry, especially with its 4WD drivetrain with larger 5mm drive pins, the desert buggy makes sure all the power is put to the ground. Drivers stay in control with a DX3 transmitter, a Spektrum SR6100AT 6 Channel AVC Telemetry Surface Receiver, and scale-to-size Maxxis Creepy Crawler LT tires. This desert buggy features all the technological advances drivers demand including the Spektrum Firma 160 Amp Brushless Smart ESC and Spektrum Firma 4-Pole 780Kv Brushless Motor allowing you to hit 50+ MPH with an 8 cell LiPo battery. Finally, the DBXL-E 2.0 has a Losi and Fox Shox race-inspired motorsports themed livery for that true off-road look. You get all this and more from the brand that represents the pinnacle of performance.

Firma 160A Smart ESC

DX3 Smart Radio

Firma 4-Pole 780Kv Motor
