

THE SIMPLE CHARGING SOLUTION

O-SPMXC2050I S155 1x55W AC Smart G2 Charger

The Spektrum S155 charger makes advanced, user-friendly Smart G2 charging technology affordable for any RC hobbyist. It's a particularly fine choice for cost-conscious new drivers and pilots who want the safe and simple operation that only a Smart charger can provide.

Compatible with 4S LiPo, LiFe, Li-Ion, or LiHV batteries as well as 1-12S NiMH and NiCd packs, the 55-watt S155 charger can be used with all popular RC battery types (though only Smart batteries take full advantage of the charger's innovative features). It includes ports for IC3 and IC5 connectors, so no separate adapters are needed to charge most Smart batteries. Generation 2 Smart technology enables the S155 to both charge and balance Smart G2 batteries using one simple connection. No separate balance lead is

needed. When connected to a Smart battery, its Auto Charge feature recognizes the correct charging parameters instantly and begins safe, proper charging — automatically.

Other handy features of the Spektrum S155 Smart G2 AC Charger include a sleep mode and detachable AC power cord. Enjoy your hobby more with the benefits of advanced, user-friendly Smart G2 charging technology — now available at a price to please any modeller!

FEATURES

- Advanced, user-friendly Smart G2 charging technology that fits into any hobby budget
- Delivers 55W of charging power
- Includes selectable IC3 and IC5 charging ports
- Charges AND balances Smart G2 batteries with one simple IC3 or IC5 connection
- Charges up to 4S LiPo/LiFe/Li-Ion/LiHV batteries and 1-12S NiMH/NiCd packs
- Colour LCD screen interface features intuitive menus, icons, and navigation
- Clock counts down remaining charge time until your Smart battery is fully charged and ready to use
- Charges virtually any RC battery (use Smart batteries to benefit from all charger features)
- Auto Charge recognizes Smart battery charging parameters and starts charging automatically when connected
- USB input for updating firmware
- Sleep mode
- Detachable power cord
- Sleek, sturdy case fits well on your workbench and in pit/field bags

IN THE BOX

- S155 AC Smart Charger
- Power Cord
- Manual

IC3® AND IC5® CHARGING PORTS
Selectable output ports for charging batteries without needing extra adapters

UNIQUE DATA
Review battery cycle-history, records, temperature and more

SMART AUTO STORAGE
Ensures a longer lifespan of your batteries

Auto Storage	72
Charge Current	71
Charge Voltage	70
Storage Voltage	69h
Battery History	68

VERSATILE
Charges up to 4S LiPo, LiFe, Li-Ion or LiHV batteries, as well as 1-12S NiMH and NiCd packs
