

**C-AXI03027T1/T2/T3 1/10 SCX10 III Base Camp 4WD Crawler RTR Blue/Green/Grey**

The 1/10 scale Axial SCX10 has long been the RC vehicle platform of choice for scale trail enthusiasts, providing exciting detail and superior off-road performance. Each new SCX10 generation raises the bar in rock crawling realism. Now, with the ready-to-run SCX10 III Base Camp 4WD, even cost-conscious crawling fans can experience the unmatched performance of Axial engineering — and enjoy plenty of scale realism, too.

Factory-assembled and ready-to-run, the Axial SCX10 III Base Camp 4WD comes with almost everything needed to hit the trails right out of the box, including the transmitter, receiver, ESC, motor, servo, and finished body. Just add your preferred batteries and charger. For anyone who wants to join the RC adventuring lifestyle — in the mountains, forest, desert, or backyard — the Base Camp 4WD makes it possible!

**FEATURES**

- Single-speed transmission includes a full set of ball bearings and all-metal internal gears for strength and durability.
- Stiff SCX10 III steel C-channel chassis reduces frame flexing and increases suspension movement precision.
- Licensed Black Rhino wheels provide scale looks.
- Licensed Falken Wildpeak tyres increase ground clearance over rough surfaces and grip on slippery trails.
- Fully rebuildable, oil-filled shocks include clear anodized, threaded shock bodies and coilover springs.
- Spektrum SLT3 2.4GHz radio with SR315 Dual Protocol receiver delivers dependable SLT 2.4GHz control now and DSMR upgrade potential for the future.
- Included and installed power system features a Dynamite 35T brushed motor and Spektrum 40A brushed ESC.
- Metal gear, 15kg high torque servo is waterproof for crawling with confidence in any weather and trail conditions.
- New body style offers exciting scale looks and lighter weight finished construction.

**NEEDED TO COMPLETE**

- Vehicle Battery
- Compatible charger
