

**C-TLR04012 1/8 8IGHT-X/E 2.0 Combo 4WD Nitro/Electric Race Buggy Kit**

The original 8IGHT-X ushered in a new era of TLR 1/8 scale buggies. The Team Losi Racing 8IGHT-X/E 2.0 Race Kit takes everything we've learned and applied it to this new platform with incredible attention to detail to make this the fastest and easiest to drive TLR 1/8 buggy yet. With the 8IGHT-X/E 2.0, drivers achieve the next level of performance, drivability, and speed. This Team Losi Racing Race Kit has updated everything that made it a regular on the podium including the drivetrain, suspension geometry, and chassis layout. The 8IGHT-X/E 2.0 can be driven harder and with more pace and is a fantastic vehicle right out of the box for all levels of consumers. It includes all the desired factory team option parts and uses common metric hardware for worldwide appeal. Plus, it includes the parts needed to build the vehicle either as Nitro or Electric in a one-box purchase. Team Losi Racing is always pursuing excellence, the 8IGHT-X/E 2.0 Race Kit is the one to beat with features and performance destined for podium greatness.
