

C-ARA7116V2 LIMITLESS 1/7 Scale Speed Bash Roller V2

Taking over from the original LIMITLESS 1/7 Scale All-Road Speed Bash Roller, this new evolution of the LIMITLESS Speed Bash Roller vehicle has been “Designed FASTER” so you can reach higher speeds than ever before! ARRMA engineers have improved the already proven LIMITLESS platform to accept bigger motors and larger ESCs — just add your choice of electronics to create an RC super car. The LIMITLESS 1/7 Scale All-Road Speed Bash Roller sits at the very top of the ARRMA Speed Bash range. It’s the new King of Speed Bashers!

Because the LIMITLESS 1/7 Scale All-Road Speed Bash Roller lets you pick and choose your own electronics package, you can adapt the power system to meet your needs as your speed run skills progress. ARRMA has refined this rolling chassis with transmission and motor mount parts that are optimized for 8S high-speed running.

FEATURES

- Easy-access sliding motor mount accepts larger diameter motors
- 3mm Chassis plate repositions the motor mount to also accept longer motors
- 39T Mod 1.0 Spool with long rear outdrive combines with a shorter rear centre driveshaft to reduce vibration
- Easy-access electronics module accepts larger ESCs & waterproof* receiver box
- Safe-D input cups are included on the front and rear gearboxes
- GP5 gears have a lower ratio for reduced drivetrain speed and vibration
- Wider rear track increases stability
- Stiffer front springs and sway bar improve high-speed handling
- The first ARRMA “Rattle Can Roller” includes a clear, low-drag body for your own unique paint scheme
- Tunable aerodynamics
- Includes dBoots Hoons All-Road tyres on Speed dish wheels
- Two large battery straps with two hook-and-loop battery straps provide reliable battery retention
- Front-to-rear chassis brace increases longitudinal chassis stiffness
- Heavy-duty servo saver
- Durable steel driveshafts
- Big bore aluminium shocks
- Black anodized front & rear towers
- Independent double wishbone suspension front and rear

NEEDED TO COMPLETE

- (1) 2+ Channel Transmitter & Receiver
- (1) Steering Servo (23T Spline Size)
- (1) ESC (8S recommended)
- (1) Motor (50 Series)
- (2) 4S LiPo Battery
- (1) Compatible LiPo Battery Charger
- (1) Mod 1 Pinion Gear (to suit motor)

IN THE BOX

- (1) LIMITLESS Speed Bash Roller
- (1) Clear Body & Nose Cone
- (1) Decal Sheet
- (1) Window Mask Sheet
- (1) Product Manual
