MB-339

**TURBINE SHOWSTOPPER**

**A-HAN3390 Aermacchi MB-339 60-85N Jet Turbine ARF, 84"**

Designer and world-class pilot Ali Machinchy created the MB-339 with the right combination of attention to details and flight characteristics that Hangar 9 pilots expect. The Hangar 9 Aermacchi MB-339 60-85N Turbine 84" ARF model delivers an incredible in-flight experience with amazing durability. This ARF version has been developed to meet the need for an attractive, easy to fly yet fully aerobatic jet model suitable for 60-85N size turbines. With this first-of-its-kind turbine powered jet model completion level, first time jet pilots get performance and flight versatility with low assembly time. Designed to be an attractive, easy to fly yet fully aerobatic jet, it features lightweight, balsa and plywood construction with carbon Fibre reinforcements and is finished in genuine UltraCote film that's long lasting and easy to maintain.

Distinctive subject matter with wide performance envelope benefits sport and scale pilots.

Laser-cut, carbon-reinforced balsa and plywood construction is utilized to bring the MB-339 to life as a durable scale model that's expertly built to exacting standards.

**FEATURES**

- Carbon Fibre reinforced wood construction provides a light and strong airframe.
- Original trim scheme provides high-contrast and great visibility.
- Two-piece, bolt-on fuselage features removable nose section.
- Multiple hatches allow easy access to turbine, wing and components
- Large top-hatch with two sprung latch system offer access to electronics and fuel system
- Detailed cockpit includes two painted pilot busts, 3d instrument panel and clear canopy
- Includes electric retract set with trailing link struts, wheels, and electric brakes
- Two-piece, plug-in wing with carbon tube for easy field assembly, transportation, and storage
- Dual-wall stainless steel tail pipe included
- Complete hardware kit includes fuel tank
- Removable stabilizer for even easier storage and transportation
- Includes optional-use and easy to install/remove tip tanks
- Genuine UltraCote film covering provides a long-lasting finish

**NEEDED TO COMPLETE**

- (1) 60-85N turbine
- (4) Standard Digital High Torque Servos
- (4) Mini Digital High Torque Servos
- (1) Full-range, 8+ channel transmitter and receiver
- (1) Receiver battery
- (1) ECU Battery
- (1) Air Trap
- Tools and adhesives
- Field Equipment

**IN THE BOX**

- (1) Aermacchi MB-339 60-85N, 84" ARF
- (1) User Manual
