

A-EFL08450 / A-EFL08475 P-47 Razorback 1.2m BNF Basic / PNP

When the P-47 Thunderbolt first arrived in the European theatre of World War II, its rotund fuselage quickly earned it the nickname "The Jug" – but it wasn't long until that became short for "Juggernaut." Built like a flying tank, it packed the wallop of eight .50 calibre machine guns and could carry enough bombs plus rockets to wipe a ground target clean off the map. The E-flite P-47 Razorback 1.2m is a replica of the venerable warbird that delivers an unmatched scale flying experience. Featuring functional flaps and retracts, it's the perfect first "full-house" taildragger warbird and everyday scale model for a wide variety of pilots. The 3S and 4S compatible power systems feature an upgraded 70A Spektrum Avian Smart Lite ESC, and the BNF Basic version is equipped with an AR631 receiver to deliver real-time telemetry data along with AS3X and SAFE Select technologies.

FEATURES

- Updated and upgraded to be the easiest-to-fly "full-house" P-47 model yet, capable of scale-like, sport, high-speed and aerobatic flying
- Specially tuned motor compatible with 3S and 4S batteries without the need for modifications or upgrades
- Popular 3S and 4S 2200-3200mAh batteries deliver excellent performance and flight times
- 70-amp Spektrum Avian Smart Lite ESC provides real-time battery voltage, current, RPM and other data via compatible receivers and transmitters
- Spektrum AR631 receiver with fly-by range telemetry and industry-leading DSMX technology\*
- Functional flaps for shorter takeoffs/landings and improved slow-speed performance
- Operational electric retracts plus scale-like strut covers, wheels and tyres
- Full 6-channel control with six factory-installed servos and linkages
- Lightweight yet durable composite-reinforced EPO construction
- Optional-use drop tank, bombs and rocket launchers
- Factory-applied "Kansas Tornado II" trim scheme
- Fast and easy assembly – no glue required

NEEDED TO COMPLETE

- **BNF Basic** - 6-7+ channel Spektrum DSMX compatible transmitter
- **PNP** - 6+ channel radio and receiver
- 3S 11.1V or 4S 14.8V 2200-3200mAh LiPo with EC3 or IC3 Connector
- Compatible LiPo charger

IN THE BOX

- (1) E-flite P-47 Razorback 1.2m with:
- (1) Avian 70A Smart Lite Brushless ESC
- (1) Spektrum Brushless Outrunner Motor
- (6) Micro Servos
- (1) AR631 6-Channel Receiver\*
- (1) Product Manual

\* Applies to BNF Basic Version Only
