

**C-LOS06000T1/T2 1/4 Promoto-MX Motorcycle RTR FXR/Club MX**

The Losi Promoto-MX isn't the first scale RC motorcycle that's ever been sold. But it is the very first one that accurately reproduces the full experience — and pure fun — of riding a real motorcycle. It's the long-awaited dream of RC hobbyists and dirt bike fans alike.

The unprecedented realism of the Promoto-MX goes much deeper than its faithfully detailed looks — the narrow frame, rider gear, and officially licensed graphics. Even more impressive is how successfully it captures true dirt bike performance, a breakthrough accomplished through a unique hybrid of mechanical and electronic technology developed specifically for the Promoto-MX. It's how these technologies work together that makes all the difference.

Promoto-MX electronics include a 2700kv motor and steel flywheel that are both mounted in the centre of the frame. The motor spins the flywheel at over 22,000 rpm to create a gyroscopic force for unparalleled stability. Meanwhile, patent-pending Spektrum MS6X technology takes your input from the DX3PM transmitter and commands the Promoto-MX to lean, turn, and control wheelies with unprecedented balance and finesse.

**FEATURES**

- The best-looking and best-performing RC dirt bike ever made
- New, patent-pending Spektrum MS6X technology
- Frame-integrated, high-RPM flywheel
- Officially licensed FXR Racing graphics and rider gear
- Officially licensed Dunlop MX53 tyres
- Rising rate rear suspension
- Powerful brushless system with 40+ mph speeds
- Dirt, Street, and Wheelie Control drive modes
- Collapsible front crash structure
- Rider figure with authentic riding gear
- Cable-driven front disc brake
- Chain drive with dual disc performance slipper clutch
- Hands-free starting stand included
- Keyed bike stand included
- Fully assembled and ready-to-run

**NEEDED TO COMPLETE**

- (1) 2S 7.4V 5000mAh LiPo with EC5 or IC5 Connector
- (1) Compatible LiPo Charger

**IN THE BOX**

- (1) Losi Promoto-MX RTR Motorcycle
- (1) Spektrum Smart DX3PM Transmitter
- (4) AA Transmitter Batteries
- (1) Bike Stand
- (1) Starting Stand
- (1) 1/4 Promoto-MX Motorcycle Manual
- (1) Quick Start Guide
- (1) Chain Lube
- Tuning Parts
- Fork and Shock Tools
