

# BRUTAL BASHING PERFORMANCE

**C-ARA5808V2T1 1/5 KRATON 4X4 8S BLX EXB Brushless Monster Truck RTR, Black**

The KRATON 1/5 8S Speed Monster Truck showcases ARRMA bashing performance at its biggest and best — and in this new ready-to-run version, it's better than ever before. Loaded with Extreme Bash parts for improved durability, plus a powerful 8S LiPo-capable Spektrum brushless system, the ARRMA KRATON 1/5 8S EXB Speed Monster Truck RTR is the ultimate Speed Monster Truck experience for large-scale bashers.

The new Spektrum 8S-capable brushless system is more powerful than ever. It features a massive 5687 FIRMA 1100Kv brushless motor, with a huge 56mm diameter and 10% more torque than the previous KRATON 8S RTR motor. The new motor is paired with a Spektrum S6510 steel gear servo that offers 820 oz-in of torque at 8.4V — nearly 50% more torque than its predecessor. The new RTR package also includes a Spektrum FIRMA 160A V2 Smart ESC and Spektrum DX3 3-channel 2.4GHz DSMR radio system with Spektrum AVC technology built-in to keep the huge power under control.

**FEATURES**

- Engineered tough with Extreme Bash 7075-T6 aluminium parts
- Bigger, tougher shocks, linkages, turnbuckles, and more
- Aggressive new EXB matte/gloss colour scheme
- Updated, extreme 8S LiPo capable Spektrum brushless power system
- EXB 7075 T6 5mm thick CNC aluminium laser-etched chassis plate
- EXB Red-anodized CNC aluminium front brace mount
- Spektrum FIRMA 1100Kv brushless motor with 10% more torque
- Spektrum S6510 steel gear waterproof servo with 47% more torque
- Easy-access front and rear diff module design
- Big Block dBoots Copperhead 2 tyres
- Easy-access 3-bolt sliding motor mount
- Heavy-duty drivetrain
- Metal diff outdrives & gearbox internals
- Durable steel driveshafts
- Durable wheel hubs
- Easy-access waterproof electronics module
- Centre body support and brace for maximum durability
- Strong composite chassis side pods
- Wheelie bar
- High-quality CNC machined aluminium 24mm wheel wrench included

**IN THE BOX**

- (1) 1/5 KRATON 8S EXB 4X4 RTR
- (1) Spektrum DX3 DSMR radio
- (1) SR6200A receiver with AVC
- (1) S6510 steel gear waterproof servo
- (1) FIRMA 1100Kv brushless motor
- (1) FIRMA 160A V2 Smart ESC
- (1) CNC machined aluminium 24mm wheel wrench
- (1) Product Manual

**NEEDED TO COMPLETE**

- (2) 3S or (2) 4S LiPo Batteries with EC5 or IC5 connector
- (1) Compatible Battery Charger
- (4) AA batteries for Transmitter
