

C-ARA3230T1 1/10 GORGON Monster Truck RTR (no Battery/Charger) Blue

The 1/10 scale GORGON MT is a low-cost monster truck that has everything you expect from an ARRMA RC — unstoppable toughness, amped-up attitude, and performance capabilities that seem to have no end. This fully assembled, ready-to-run version adds one more advantage that any basher with experience will appreciate: The battery and charger choices are left up to you. Complete your GORGON MT with any compatible battery type and capacity with IC3/EC3 connectors that you prefer. Make it an even more affordable addition to your RC fleet by using a battery and charger you already own!

Because you add your own choice of battery with IC3/EC3 connectors and charger, you can easily build your ARRMA GORGON MT into your perfect custom RC bashing beast. Take advantage of its 2S LiPo-compatible Spektrum electronics to feed the monster with LiPo power.
