

NX7e

WHEN BOLD DESIGN MEETS FUNCTIONALITY

P-SPMR7100EU NX7e 7-Channel DSMX Transmitter Only

For the beginner to intermediate, BNF-type, and budget-conscious RC pilot, the Spektrum NX7e gives you the unbeatable response of DSMX technology, the simplicity of Spektrum AirWare programming software, and many other features you can't find on other similarly priced radios.

Don't settle for less and upgrade to the best. As the pioneer of 2.4GHz RC technology, our engineers live and breathe the RC life as much as you do, and design and develop innovations for more RC fun. With a modern case design and a new pristine white colouring, this transmitter is not only sleek but also comfortable to hold. Radio programming shouldn't be complex and require an engineering degree. The Spektrum NX7e gives you the unbeatable response of DSMX technology and the simplicity of Spektrum AirWare firmware developed exclusively by Spektrum from the ground up, providing pilots with next-level radio control.

FEATURES ☰

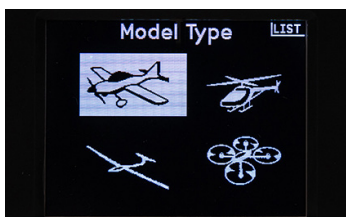

- 7-Channel support and BNF model templates for easily setting up most BNF Aircraft
- Modern case design with new white colours
- Folding antenna for compact storage and transport
- Spektrum AirWare programming for easy programming out of the box
- Unbeatable response of DSMX Technology
- 2.8" 320x240 colour display
- USB-C and Micro SD connectivity
- 250-model memory
- Multiple colour palette choices and customizable colours
- 2200mAh Lithium-Ion Battery installed
- Airplane, Helicopter, Sailplane, and Multirotor programming
- Wireless trainer system capability with optional SRXL2 DSMX Remote Receiver (available separately).

NEEDED TO COMPLETE +

- Compatible Spektrum receiver

IN THE BOX ✓

- (1) Spektrum NX7e 7-Channel 2.4GHz DSMX Transmitter
- (1) 2200mAh Li-Ion Transmitter Battery
- (1) USB-C Cable
- (1) Product Manual

You can easily navigate program menus with the transmitter's roller-wheel scrolling interface with Clear, Back, and Function buttons.

Weight distribution and switch placement have been optimized for comfort and precise, fatigue-free control.

The NX7e transmitter features a USB-C port that allows you to charge the internal Li-Ion battery with the included USB-C cable.

The NX7e transmitter includes a long-lasting 2200mAh Lithium-Ion battery and a USB-C Cable for convenient charging.
