

MINI MONSTER JAM

MINI LMT RTR
READY-TO-RUN

C-LOS01026T1/T2 1/18 Mini LMT Brushed MT RTR Grave Digger/Son-Uva Digger

The 4WD Mini LMT brings monster truck excitement to RC in a race anywhere size that fits in a backpack. Scaled down from standard size LMT platform, it delivers great performance out of the box to bring Monster Jam dreams to life!

The officially licensed bodies represent two of the best-known and most admired names in the sport of monster trucks. Audiences packed into arenas around the world to catch the exploits of Dennis Anderson's Grave Digger, and now they're doing the same to watch his son Ryan's Son-uva Digger.

Losi Mini LMT 4WD monster truck comes factory-built and finished, with everything required for operation in the box - including a high-quality Spektrum SLT2 radio for interference-free 2.4GHz control, and a high-capacity Spektrum Smart LiPo battery and charger for long run times and effortless recharging.
