

THE 4S EVOLUTION

C-ARA4408V2T3/T4 1/10 KRATON 4S Speed Monster Truck RTR Red / Green

With massive tyres, a menacing truck body, and a long wheelbase for stability, the 1/10 scale ARRMA KRATON 4S BLX Speed Monster Truck proudly takes its place between agile 3S BLX bashers and mighty 6S BLX machines. The 4S BLX platform lets you bash with next-level ARRMA performance, toughness, and speed, without breaking your budget. This KRATON comes fully factory-assembled on the latest evolution of the 4S BLX - and it's prepared to blast like never before!

The strengthened, diff compatible chassis now includes a centre diff module that holds an aluminium-cased centre differential. It provides the ultimate traction for any surface conditions. Shielded to the max with wishbone dirt guards, outdrive protectors, and taller side guards, the KRATON 4S BLX stands up to furious blasting over dirt, through grass, and on paved surfaces, all with equal ease.

Fully ready-to-run, the ARRMA KRATON 4S BLX Speed Monster Truck comes with a 3-channel Spektrum SLT3 2.4GHz radio and dual protocol SR315 receiver. Charge up your choice of recommended battery and blast with the best!

FEATURES

- Metal centre differential for increased traction
- Updated chassis with centre diff module, hinge pin bracing, and dirt drain
- Outdrive protectors, taller side guards, and wishbone dirt guards
- Higher torque S662 metal-gear digital servo with alloy case centre
- Cooler running Spektrum Firma 120A V2 Smart ESC
- Improved battery retention system with wire clips
- Fully assembled and ready-to-run
- Spektrum SLT3 2.4GHz transmitter and dual protocol SR315 receiver
- Spektrum Firma 3668 2400Kv motor with ARRMA heatsink and cooling fan
- EXB all-metal gear diffs
- EXB CVD front and rear driveshafts
- Wide 17.72 inch front and rear track for aggressive bashing
- Long 21.54 inch chassis and 13.98 inch wheelbase for stable handling
- CNC machined, red anodized 17mm wheel hubs
- Multi-terrain dBoots COPPERHEAD 2 LP vented low-profile tyres
- Front bumper and protective lower front and rear skid plates

IN THE BOX

- (1) ARRMA KRATON 4S BLX 4WD 1/10 Scale Speed Monster Truck RTR
- (1) Spektrum Firma 120A V2 Smart Waterproof* ESC
- (1) Spektrum Firma 3668 2400Kv Brushless Motor
- (1) Spektrum S662 Metal-Gear Waterproof* Digital Servo
- (1) Spektrum 2.4GHz SLT3 Transmitter & SR315 Receiver
- (4) AA Batteries
- (1) Instruction Manual

NEEDED TO COMPLETE

- (2) 2S, (1) 3S, (1) 4S Hardcase LiPo Battery
- (1) Compatible LiPo Charger
