OUTCAST 4S BLX

C-ARA4410V2T3/T4 1/10 OUTCAST 4S Stunt Truck RTR Gunmetal/Red

The updates drivers have wanted most are included, starting with a strengthened, diff compatible chassis. The ARRMA OUTCAST 4S BLX now has a centre diff module that holds an aluminium-cased centre differential. Whatever the surface conditions are, the centre diff helps you grab the ultimate traction. And with wishbone dirt guards, outrdrive protectors, and taller side guards providing added defense against dirt and debris, the OUTCAST 4S BLX stands up to furious blasting and stunting over off-road or paved surfaces with equal ease.

ARRMA has also amped up the OUTCAST stunt truck's 4S-capable Spektrum brushless power system for more intense all-road action. A cool-running Spektrum Firma 120A Smart V2 waterproof ESC with IC5 connectors (EC5 compatible) adds punch and improves the driving feel. Steering has been strengthened with a Spektrum S662 metal-gear digital servo that includes an alloy centre case. Its higher torque sharpens the truck's maneuvering capabilities at high speeds.

Fully ready-to-run, the ARRMA OUTCAST 4S BLX Stunt Truck comes with a 3-channel Spektrum SLT3 2.4GHz radio and dual protocol SR315 receiver.

FEATURES

- Metal centre differential for increased traction
- Updated chassis with centre diff module, hinge pin bracing, and dirt drain
- Outdrive protectors, taller side guards, and wishbone dirt guards
- Higher torque S662 metal-gear digital servo with alloy case centre
- Cooler running Spektrum Firma 120A V2 Smart ESC
- Improved battery retention system with wire clips
- Fully assembled and ready-to-run
- Spektrum SLT3 2.4GHz transmitter and dual protocol SR315 receiver
- Spektrum Firma 3668 2400Kv motor with ARRMA heatsink and cooling fan
- EXB all-metal gear diffs
- EXB CVD front and rear driveshafts
- Wide 17.72 inch front and rear track for aggressive bashing
- Long 20.28 inch chassis and 12.32 inch wheelbase for stunt capabilities
- CNC machined, red anodized 17mm wheel hubs
- Multi-terrain dBoots BACK-FLIP LP low-profile tyres
- Front bumper and protective lower front and rear skid plates

IN THE BOX

- (1) ARRMA OUTCAST 4S BLX 4WD 1/10 Scale Stunt Truck RTR
- (1) Spektrum Firma 120A V2 Smart Waterproof* ESC
- (1) Spektrum Firma 3668 2400Kv Brushless Motor
- (1) Spektrum S662 Metal-Gear Waterproof* Digital Servo
- (1) Spektrum 2.4GHz SLT3 Transmitter & SR315 Receiver
- (4) AA Batteries
- (1) Instruction Manual

NEEDED TO COMPLETE

- (2) 2S, (1) 3S, (1) 4S Hardcase LiPo Battery
- (1) Compatible LiPo Charger
