A-EFL71750/A-EFL71765 Turbo Timber SWS 2.0m BNF Basic / ARF

E-flite Timber models have become some of the most popular and best-selling RC aircraft of all time. Known for their friendly handling, Short Take Off and Landing (STOL) capabilities, and sporty flight performance, they're some of the best all-around fun-to-fly models for a wide range of pilots. The E-flite Turbo Timber SWS (Sport Wood Series) 2.0m is the largest Timber model from E-flite yet, plus it offers the advantages of lightweight, stiff and strong wood construction to deliver flight performance unlike similar class foam models. It's available in an ARF version that bolts together and is ready for installation of your preferred power system and electronics, or in a BNF Basic version that's equipped with six factory-installed servos, a 4S to 6S compatible Spektrum Avian motor and Smart ESC, plus an 8-channel receiver with AS3X and SAFE Select technologies.

FEATURES

- Based on the design of the extremely popular Turbo Timber 1.5m models but in a larger size with even sportier performance and capabilities
- A great first-ever "wood", everyday sport flying and aerobatic capable plus large-scale model for intermediate to experienced pilots
- Strong and stiff - yet lightweight and long-lasting - built-up wood airframe finished with UltraCote covering
- Popular and common 3200-7000mAh batteries deliver a wide range of performance and flight times
- Functional flaps plus the option to utilize crow and/or full-span flaperons for improved STOL capabilities
- Transparent windows and factory-installed LED landing/navigation lights for added scale-like looks
- Simple and durable aluminium landing gear with oversized tundra-style wheels/tyres
- Fast and easy bolt-together assembly - no glue or special tools required
- Two-piece wing for more convenient storage and transport

NEEDED TO COMPLETE

- BNF Basic Version**
- (1) Full-range 5-7+ channel Spektrum DSMX compatible transmitter
 - (1) 4S 14.8V to 6S 22.2V 3200-7000mAh LiPo with EC5 or IC5 Connector
 - (1) Compatible LiPo charger
- ARF Version**
- (1) Full-range 5+ channel transmitter and receiver
 - (6) Std sized servos with 80+ oz-in torq.
 - (1) 4S to 6S 3200-7000mAh LiPo
 - (1) Compatible LiPo charger
 - (1) 550-900+ watt capable motor/ESC

IN THE BOX

- (1) E-flite Turbo Timber SWS with:
- (1) AR8360T 8-Channel Receiver*
- (6) Spektrum A6380 Digital HV Servos*
- (1) Avian 5055-500Kv Outrunner Motor*
- (1) Avian 100-Amp Brushless Smart ESC*
- (1) Product Manual
