

# AN ICONIC WWII FIGHTER

**A-EFL7350** UMX P-51D Mustang "Detroit Miss" BNF Basic with AS3X & SAFE Select

The P-51D Mustang is world-renowned as quite possibly the most iconic fighter aircraft of all time! The E-flite UMX P-51D Mustang is an ultra-micro sized model of the famous aircraft that's a warbird version of the popular UMX P-51D Voodoo racer. It's equipped with expertly-tuned AS3X and optional-use SAFE Select technologies, is 2S and 3S battery compatible, and provides real-time battery voltage telemetry to compatible transmitters. Because of its ultra-micro size, the UMX P-51 can be flown in more places and smaller spaces including many yards, parks, and sports fields! The fixed landing gear with a steerable tailwheel makes it easy to taxi, takeoff from, and land on smooth surfaces, or you can leave the landing gear off for more speed and vertical performance with easy hand launches over and landings on grass. It's the most affordable, convenient, and easiest-to-fly replica of a P-51D Mustang yet!

## FEATURES

- More powerful 2S and 3S-compatible ESC and motor with 4-blade prop
- Works with the Spektrum DXS transmitter included with many RTF models
- Real-time battery voltage telemetry with compatible Spektrum transmitters
- Spektrum receiver with industry-leading 2.4GHz DSMX technology
- The unmatched stability and locked-in feel of exclusive AS3X technology
