

# READY FOR ANY ADVENTURE.

SCX24

## C-AXI00005V2T3/T4/T5 1/24 SCX24 Jeep JT Gladiator RTR Green / White / Black

The 1/24 scale Axial SCX24 Jeep JT Gladiator has become a favorite among RC crawling fans who crave the freedom to adventure anywhere, indoors or outside. No matter where you are, the SCX24 Jeep Gladiator turns it into the setting for an overlanding expedition. You can easily turn your desk at work or your den at home into a challenging obstacle course. Then, take your rig outside and set up an exciting trail with a few holes, rocks, and twigs.

One of the most popular micro rock crawlers of all time, the SCX24 Jeep Gladiator is also one of the best values you'll find in an RC rig. That's especially true now that Axial has updated the RTR to include high-quality Spektrum electronics. The SCX24 Jeep Gladiator itself is upgraded with plush, oil-filled shocks for a suspension that smoothly absorbs bumps and remains stable over the roughest terrain.

Inside the box, in addition to the assembled and finished rig, you'll find a Spektrum 2.4GHz transmitter, 350mAh LiPo battery, and handy USB charger. Four AA batteries are even included for the transmitter. Take your own overland adventure, RC-style, with the Axial SCX24 Jeep JT Gladiator - a rig you know is ready for anything!
