

C-AXI01002V2T1/T2 1/18 UTB18 Capra 4WD Unlimited Trail Buggy RTR Black/Grey

Perfect for indoor and outdoor crawling, the UTB18 delivers impressive performance on the rocks, climbing rock ledges, flexing over obstacles, and squeezing through tight notches. Officially licensed Nitto Trail Grappler M/T tyres mounted to officially licensed Raceline Monster wheels give it the grip to conquer rocky trails, rough dirt tracks, and most other off-road surfaces. Body panels with licensed livery, helmeted driver and passenger figures, LED lights and more combine for realistic scale looks to match its crawling capabilities.

In addition to a Spektrum SLT2 2.4GHz radio, the UTB18 comes with a Spektrum 2-in-1 ESC/receiver unit, Spektrum 2S Smart G2 LiPo battery, and Spektrum Smart USB LiPo battery charger. It's even easier to use than before, and the value of the RTR package is better than ever.

FEATURES
