A-EFL02550 / A-EFL02575 Super Timber 1.7m BNF Basic / PNP

The E-flite Super Timber 1.7m is the most feature-rich and capable Timber yet! It includes a long list of “super” details from inflatable tyres and heavy-duty articulated landing gear, to slats that can be installed and removed in seconds, a 4S to 6S compatible power system, and much more. With “super” features and capabilities including inflatable tyres with beadlock wheels, heavy-duty and articulated shock-absorbing landing gear, slats that can be installed without glue and removed easily in seconds, fastener-free wing and tail attachment, and more. It’s extensive features make it perfect for everything from slow and easy cruising to sport and all-out aerobatic flying - along with the incredible STOL capabilities a wide range of pilots have come to expect.

FEATURES

- A long list of “super” details makes this the most feature-rich, capable, and best flying Timber model to date
- Specially tuned Spektrum brushless motor compatible with 4S to 6S batteries without the need for modifications
- 85-amp Spektrum Avian Smart Lite ESC provides real-time battery voltage, current, and other data via compatible receivers and transmitters
- Spektrum AR637TA receiver with full-range telemetry and industry-leading DSMX technology*
- Inflatable rubber tyres with beadlock wheels plus heavy-duty articulated and shock-absorbing landing gear
- Plug-in wing panels featuring hands-free servo connections and innovative wing lock mechanisms, so no fasteners are required to install them
- Optional-use leading-edge slats that clip into place without glue for quick and easy installation/removal
- Functional flaps that can travel both ways for optional use as full-span ailerons
- Functional and factory-installed LED landing, navigation, and strobe lights

IN THE BOX

- (1) E-flite Super Timber 1.7m
- (1) Spektrum Brushless Outrunner Motor (installed)
- (6) Spektrum Digital, Metal-Geared Servos (installed)
- (1) Spektrum Avian 85-Amp Smart Lite Brushless ESC (installed)
- (1) Product Manual

NEEDED TO COMPLETE

- BNF Basic Version**
- (1) Full-range 5-7+ channel Spektrum DSMX compatible transmitter
- PNP Version**
- (1) Full-range 5+ channel transmitter and receiver
- Both Version**
- (1) 4S 14.8V to 6S 22.2V 3200-5000mAh LiPo with EC5 or IC5 Connector
 - (1) Compatible LiPo Charger
