

iX14+SE SMOOTH OPERATOR

P-SPMR14020EU iX14+ 20-Channel DSMX Transmitter Only

The Spektrum™ IX+ series of Smart-ready air radios are our most powerful, feature packed radios to date, and they host a wide array of innovations and upgrades. The line was designed to meet the present and future needs of pro pilots who want top-class features, easy programmability, and the capabilities required to fly high-performance aircraft.

The iX14+ is the perfect intelligent transmitter for intermediate to advanced-level pilots who fly performance RC aircraft, including EDF jets and giant-scale turbine jets. It offers 20 channels and includes many of the latest Spektrum advances in connectivity, programmability, and ergonomics. With its fast Android interface, Smart Technology compatibility, precise machined aluminium hall-effect gimbals, and more, the iX14+ continues the Spektrum brand's commitment to innovation and reinforces its position at the cutting edge of aircraft radio technology

FEATURES

- Machined Aluminium hall-effect gimbals
- Smart Technology compatible
- Models load from new/updated BNF receivers
- AS3X+ Forward Programming
- Fast, full-colour, 4.5-inch, Android-powered touchscreen interface
- 20 channels at 22ms frame rate
- Custom sound support and voice alerts
- Programming for airplanes, heli, sailplanes, and multi-rotors
- Logic switches
- 250 model memory
- Superb ergonomics including smooth, contactless, and multi-rotors precision gimbals
- Speech-to-text functionality through BLE (Bluetooth Low Energy) or wired headsets
- Wi-Fi connectivity for easy product registration and firmware updates
- USB-C port for charging the internal Li-Ion battery with the included magnetic USB cable and magnetic USB-C adapter

IN THE BOX

- (1) Spektrum iX14+ Transmitter
- (1) Custom iX14+ Neck Strap
- (1) iX14+ Decal Sheet
- (1) Magnetic USB-C Adapter
- (1) USB Magnetic Adapter Cable
- (1) Quick Start Guide
- (1) Exclusive iX14+ Carrying Case
- (1) 10,500mAh Li-Ion Transmitter Battery Pack

NEEDED TO COMPLETE

- (1) Compatible Spektrum Receiver

Aluminium gimbals with hall-effect sensors that offers advanced precision, low maintenance and an ultra-smooth feel.

The iX14+'s weight distribution and ergonomics have been optimized to fit a wide range of pilot needs.

Fast, full-colour, 4.5-inch, easy-to-read Android-powered touchscreen interface.

Wi-Fi connectivity for easy product registration and firmware updates.
