

A-EFL-1492 / A-EFL-1493 / A-EFL-1495 Airbus A320neo Twin 64mm EDF PNP / BNF Basic (with AS3X+ & SAFE) / BNF Basic White

The Airbus A320, the best-selling airliner ever, is flown by airlines worldwide. The modern "neo" version features advanced turbofan engines and Sharklets wingtip devices, cutting fuel burn by 20% and improving range and payload. Officially licensed by Airbus, the E-flite A320neo Twin 64mm EDF accurately replicates the aircraft with scale details like LED lights, flaps, and retractable landing gear. Its twin 64mm EDF system offers powerful, scale-like performance and long flight times using 6S 3200-7000mAh batteries. Both the "neo" livery and "base white" BNF Basic versions include a pre-installed receiver with AS3X+ for improved stability in wind, optional SAFE Select for easier flying, and motor/thrust reversing for better ground handling. All models come with Spektrum digital metal-gear servos, dual Smart Lite ESCs, and outrunner motors.

FEATURES

- Officially licensed, scale replica of the best-selling and iconic aircraft flown by numerous airlines worldwide
- Unexpectedly wide performance envelope and speed range, capable of scale-like to surprisingly aerobatic flying
- Twin 12-blade 64mm fans deliver excellent speeds, vertical performance and a turbine-like sound
- Eight factory-installed digital, metal-gear servos with ball-link linkages
- Electric retracts with shock-absorbing struts for operation from a variety of surfaces including grass
- Convenient and large top hatch with plastic-capped edges for easy access to the battery compartment and receiver
- Available with a factory-applied "neo" livery or in a "base white" version you can customize yourself
- Two-piece wing with hands-free connections and thumbscrews for easier storage and transport
- Lightweight yet strong and durable composite-reinforced EPO construction

IN THE BOX

- Airbus A320neo Twin 64mm EDF with:
- (8) Spektrum Digital, MG Servos
- (2) Spektrum BL Outrunner Motor
- (1) Spektrum Avian 40-Amp Dual Smart Lite Brushless ESC (installed)
- (1) Spektrum AR637TA+ 6-Channel Receiver with AS3X+ and SAFE Select*
- (1) Product Manual

NEEDED TO COMPLETE

BNF Basic

- (1) Full-range 6-8 Channel Spektrum DSMX compatible transmitter

PNP

- (1) Full-range 6+ channel transmitter and receiver

All Versions

- (1) 6S 22.2V 3200-7000mAh 30+C LiPo with EC5 or IC5 Connector
- (1) Compatible LiPo charger
