

B-PRB-1992T1/T2 Sonicwake 24" Self-Righting Brushless Deep-V RTR, Red / Blue

The Sonicwake 24" joins the popular Pro Boat lineup, combining proven features with beginner-friendly performance and affordability. Larger than mini pool boats but still perfect for small ponds, it's ready for high-speed fun without needing a big lake.

Powered by a factory-installed Spektrum 2500Kv brushless motor, it hits speeds over 35 mph. A 5.3kg waterproof servo ensures responsive steering, while the deep-V hull cuts smoothly through water for stable handling.

Its self-righting design flips it upright automatically, so capsizes aren't a problem. The tough ABS hull and breakaway rudder handle bumps and impacts with ease—just pop the rudder back in place and keep going.

The Sonicwake 24" includes a Spektrum 3S Smart LiPo battery and USB-C charger for quick, safe recharging. With the SSL (Strap, Slide, Lock) system, battery swaps are fast and hassle-free.

FEATURES

- Durable injection-moulded ABS hull and canopy
- Damage-resistant breakaway rudder
- Spektrum SLT2 2-channel 2.4GHz radio transmitter
- Spektrum SR215 DSMR 2-channel sport receiver
- Factory-installed 35+ mph Spektrum brushless power system
- Spektrum 3542 2500Kv brushless marine outrunner motor
- Spektrum 50A brushless marine ESC
- Pro Boat 5.3kg 4.8-6V waterproof standard servo
- Sturdy composite boat stand

IN THE BOX

- (1) Pro Boat Sonicwake 24 Self-Righting Brushless Deep-V RTR
- (1) Spektrum 3542 2500Kv Brushless Outrunner Marine Motor
- (1) Spektrum 50A Smart Brushless Marine ESC
- (1) Spektrum 3S 3200mAh 30C Smart LiPo Battery
- (1) Spektrum S120 USB-C Smart Battery Charger
- (1) Spektrum SLT2 2-Channel 2.4GHz Radio Transmitter
- (1) Spektrum SR215 DSMR 2-Channel Sport Receiver
- (1) Pro Boat 5.3kg 4.8-6V Waterproof Analogue Standard Servo
- (1) Instruction Manual
- (1) Boat Stand
- (4) AA Batteries

NEEDED TO COMPLETE

- Nothing! Everything you need is included in the box.
