

C-ARA3537T1/T2/T3 1/10 QUAKE 223S DSC RTR Monster Truck Red / Green / Purple

The ARRMA QUAKE 223S BLX delivers out-of-the-box brushless power with no upgrades needed. Run 2S LiPo for 35+ MPH or go 3S to break 50 MPH, thanks to ARRMA-tough engineering that handles the hits and keeps coming back. The Spektrum SLT2 radio offers a 3-level throttle limiter for controlled learning, while Dynamic Stability Control corrects steering in real time for more traction and fewer crashes. A wide stance, long-arm suspension, and high-grip dBoots tyres give it a planted, predictable feel on dirt, pavement, tracks, or open fields. Under the body, oil-filled shocks, metal-gear differentials, a rugged composite chassis, and waterproof electronics make it ready for any weather and any terrain. Charge it, throttle up, and unleash the aftershock.

FEATURES

- Ready-to-run — just add battery and charger
- Install a 2S LiPo battery for 35+ mph maximum speed
- Use a 3S battery for 50+ mph pro-level top speeds
- Spektrum DSC (Dynamic Stability Control) and throttle limiting to keep you in control
- Heavy-duty transmission
- Durable composite chassis
- Mesh safe motor plates
- All-terrain suspension package
- Oil-filled, coil-over shocks
- Adjustable ride height
- Aggressive monster truck body style
- Clipless body retention system
- All-terrain dBoots Cut Chevron tyres front and rear
- Wheelie bar
- Reliable, high-quality hex hardware
- Easy-access bottom-loading battery tray
- ARRMA 40mm cooling fan

IN THE BOX

- (1) QUAKE 223S BLX 2WD MT RTR
- (1) Spektrum SLT 45A 2-in-1 Waterproof ESC & Receiver 2S/3S with DSC
- (1) Spektrum 3660 4000Kv BL Motor
- (1) Spektrum SLT2 2.4GHz Transmitter
- (1) Spektrum S681 Metal-Gearred Waterproof* Digital Servo
- (4) AA Transmitter Batteries
- (1) 2mm + (1) 2.5mm Hex Driver
- (1) Wheel Wrench/Shock Tool
- (1) Instruction Manual

NEEDED TO COMPLETE

- 1 x 2S or 1 x 3S Hardcase LiPo Battery with IC5 connector
- Battery Charging Bag
- Battery Charger
