

A-HBZ32001SE / A-HBZ320051SE Carbon Cub S 2 1.3m Cleetus McFarland Special Edition RTF Basic / BNF Basic

The HobbyZone Carbon Cub S 2 1.3m Cleetus McFarland Special Edition is inspired by McFarland's full-scale CubCrafters Carbon Cub and builds on the best-selling Carbon Cub S2. Featuring exclusive SAFE technology with Beginner, Intermediate and Experienced modes, plus Panic Recovery, it makes learning to fly easier and safer. Oversized tundra tyres and optional floats allow take-offs and landings on grass, gravel, dirt, tarmac or water. A telemetry-capable ESC provides real-time data, with the option to upgrade to SAFE Plus GPS features such as AutoLand and Virtual Fence. The Ready-To-Fly (RTF) Basic version includes everything except a battery and charger, plus a RealFlight Trainer Edition simulator for practice on PC, while the Bind-N-Fly (BNF) Basic version lets you use your own gear. Durable, factory-installed components make assembly simple, and once mastered, the Carbon Cub S 2 is capable of aerobatics and can use the same transmitter for other compatible aircraft.

FEATURES

- Special Edition version of the popular Carbon Cub S 2 1.3m inspired by Cleetus McFarland's full-scale Carbon Cub that includes several exclusive and value-adding features:
- Decals/markings replicating McFarland's full-scale aircraft plus a collectible box
- A spare propeller
- The most capable, versatile, and easiest-to-fly scale trainer, based on the iconic Carbon Cub from CubCrafters
- Equipped with exclusive SAFE technology that helps prevent crashes and makes it easy to learn how to fly
- Beginner, Intermediate, and Experienced flight modes you can easily change between at the flip of a switch
- Panic Recovery mode at the push of a button to prevent loss of control and crashes
- Robust landing gear with oversized tires for operation from a variety of surfaces
- Quick and easy assembly-no glue or special tools required
- Durable EPO construction that's tough yet lightweight
- Practice flying this aircraft in the RealFlight RC flight simulator*
