

C-ARA7816T1/T2 1/7 LIMITLESS 8S AVC 4X4 RTR BLX Red-Black / White-Blue

The ARRMA LIMITLESS 120 RTR is a 1/7 scale RC car engineered for extreme speed, capable of blasting past 70 mph straight out of the box, surpassing 100 mph with the included high-speed pinion, and pushing beyond 120 mph with the high-speed pinion, centre spool, and aerodynamic trim package. Designed for serious drivers, it offers three distinct performance setups to match your skill and nerve. Power comes from a formidable Spektrum electronics system, featuring a 160A Smart ESC, 1450Kv brushless motor, and fully waterproof components. Its reinforced aluminium chassis, EXB differentials, and big bore shocks ensure it stays tough under maximum load, while aerodynamic bodywork and AVC technology keep it stable and in control at these extreme velocities. With 6S or 8S LiPo power, the LIMITLESS 120 doesn't just go fast—it redefines what fast means for an RC car!

FEATURES

- Ready-to-run - just add your choice of battery and charger
- Factory-finished low-drag body in a choice of colours
- Ready for 6S or 8S hardcase LiPo batteries
- Optional spool and pinion gears included for speed tuning
- Tunable Aero package included (Wing trim lines provided for reducing downforce and drag)
- Refined 3mm anodized aluminium chassis
- Centre brace for maximum durability
- Heavy-duty drivetrain
- EXB differentials with all-metal diff outdrives and gearbox internals
- Bearing-supported rear drive shaft
- Big bore oil-filled shocks
- Black-anodized aluminium front and rear shock towers
- Speed wheels and all-road dBoots Hoons tyres
- Full-width front splitter
- Large rear diffuser
- Adjustable front and rear body mounts
- Large battery trays to accommodate larger batteries
- Safe-D output shaft

IN THE BOX

- ARRMA LIMITLESS 120 8S BLX 4X4 Speed Machine RTR
- (1) Spektrum Firma 160A Smart V2 Waterproof* ESC 6S/8S
- (1) SR6200A DSMR AVC Receiver
- (1) Firma 4685 1450Kv Brushless Motor
- (1) Heatsink & Dual Cooling Fans
- (1) S665 Waterproof* MG Digital Servo
- (1) Spektrum DX3 Smart 3-Channel 2.4GHz Transmitter
- (1) AA Batteries
- (4) Instruction Manual
- Misc. Tools

NEEDED TO COMPLETE

- (2) 4S or (2) 3S Hardcase LiPo Batteries
- (1) Compatible Charger
- (1) Charging Bag
