

C-ARA2137T1/T2/T3 1/16 QUAKE GROM 4X4 RTR Monster Truck - Red/Green/Purple

In monster trucks, it's go big or go home—and the ARRMA QUAKE GROM 4X4 RTR Monster Truck never holds back. Built for first-time drivers, it delivers real monster truck muscle in a compact size that's easy to handle, tough enough to take hit after hit, and ready to roll straight out of the box. Charge the battery, clip on the body, and your backyard or driveway instantly becomes a stunt arena.

The QUAKE GROM keeps it simple but never small. A quick-release, clipless body means no pins or tools, while a secure battery tray locks in power no matter how hard you bash. High-travel shocks and a deep tub chassis soak up jumps, bumps, and rough ground, while the tall monster stance clears dirt piles and gravel with ease. From pavement to dirt patches—even indoors—the GROM is always game.

Throttle response is crisp, handling is tight, and ARRMA's signature send-it spirit shines through in every leap, flip, and crash. Built for beginners but tough enough to keep growing with you, the QUAKE GROM makes every session bigger, bolder, and louder. Small in size, massive in attitude—the ground floor of monster truck mayhem starts here.
