A-EFL08750 / A-EFL08775 SNJ-5/AT-6 Texan 1.5m BNF Basic / PNP

Before student pilots during World War II became hot-shot Allied fighter jocks, they first needed to gain experience using an advanced trainer. The tough AT-6 Texan gave them the ability to handle all the bad habits of a fighter and become well-disciplined with a high level of respect for their aircraft. U.S. Navy pilots flew the airplane extensively under the SNJ designation, and today, hundreds of AT-6s continue to fly, serving well beyond their trainer role. The E-flite SNJ-5/AT-6 Texan 1.5m is a rare tribute to the unsung warbird, equipped with an upgraded 3S and 4S compatible power system, including a Spektrum Avian 70A Smart Lite ESC. The BNF Basic version also includes a telemetry-capable AR631+ receiver with enhanced AS3X+ technology – plus optional-use SAFE Select technology to make it even easier for a wide range of pilots to fly and enjoy!

## FEATURES

- Updated and upgraded to be the easiest to fly SNJ-5/AT-6 Texan model yet, capable of scale-like, sport, high-speed, and aerobatic flying
- Popular 3S and 4S 2200-3200mAh batteries deliver a wide range of performance and flight times
- 70-amp Spektrum Avian Smart Lite ESC provides real-time battery voltage, current, RPM, and other data via compatible receivers and transmitters
- Functional split flaps for shorter takeoffs/landings and improved slow-speed performance
- Operational electric retracts with lightweight struts and scale-like covers
- Specially tuned motor compatible with 3S and 4S batteries without the need for modifications or upgrades
- Functional split flaps for shorter takeoffs/landings and improved slow-speed performance
- One-piece wing with hands-free servo connections
- Large and convenient top-mounted hatch for easy access to the battery
- Lightweight yet durable composite reinforced EPO construction
- Fully painted and factory-applied SNJ-5 "101" trim scheme

## IN THE BOX

- E-flite SNJ-5/AT-6 Texan 1.5m with:
- (1) Spektrum BL Outrunner Motor
- (1) Avian 70A Brushless Smart Lite ESC
- (3) Spektrum Sub-Micro Metal-Geared
- (2) Spektrum Sub-Micro
- (1) Spektrum AR631+ 6-Channel Receiver with AS3X+ and SAFE Select\*
- Product Manual

## NEEDED TO COMPLETE

### BNF Basic

- Full-range 6-7+ channel Spektrum DSMX compatible transmitter

### PNP

- 6+ channel transmitter and receiver

### Both

- 3S 11.1V or 4S 14.8V 2200-4000mAh LiPo battery with EC3 or IC3 Connector
- Compatible LiPo charger
