

A-EFLU17750 UMX Viper 30mm EDF Jet BNF Basic with AS3X and SAFE Select

Featuring functional lights, a 4S compatible power system, and more, the E-flite UMX (Ultra Micro eXtreme) Viper 30mm EDF is scaled down from the best-selling 64mm, 70mm, and 90mm models to deliver smooth handling plus incredible performance that makes it the class-leading choice for first-time to experienced EDF pilots! Like the full-scale ViperJet, it sports fighter-jet looks with the stability of a low-wing sport airplane, so more pilots can enjoy flying a jet – even if it's your first-ever EDF! Plus, its exclusive AS3X and SAFE Select technologies make it easier to hand-launch or take off and land than other similar class models.

FEATURES

- A scale jet model with incredibly smooth sport airplane handling and amazing aerobatic capability
- The best choice for a first-ever and everyday EDF jet for intermediate to experienced pilots
- 30mm fan with a powerful 4S compatible outrunner motor and ESC
- Real-time battery voltage and telemetry data with compatible transmitters
- Spektrum receiver with fly-by range telemetry and industry-leading 2.4GHz DSMX technology
- The unmatched stability and locked-in feel of exclusive AS3X technology
- Factory-assembled and nearly ready to fly right out of the box
- Take off from and land on smooth surfaces using the installed landing gear plus steerable nose wheel
- Remove the landing gear and utilize the automatic Hand Launch Assist Mode when flying over grass or other suitable surfaces
- Removable wing with quarter turn thumbscrew and hands-free connections for more convenient storage and transport in the box with a handle
- Functional LED navigation and landing lights for improved visibility and orientation
- Unique and iconic trim scheme by Aircraft Studio Design
- Full 4-channel control, including a functional rudder
