

# ALL SPEED, NO COMPROMISE

**A-EFL120050 / A-EFL120075** V1200 1.2m BNF Basic with AS3X+ & SAFE Select / PNP

Fly fast and look good doing it with the E-flite V1200! The original V1200 quickly became known as one of the fastest right-out-of-the-box models - also capable of unexpectedly stable slow flight for easier landings thanks to its functional flaps - with impressive aerobatic capabilities. Now it's available again with larger, more durable and reliable retract units, a higher visibility colour scheme and improved finish, plus the proven high-performance brushless power system that lets you choose how ballistic you want to be. Level-flight top speeds of up to 110+ MPH are possible with 4S batteries. Or reach up to 140+ MPH using common 6S 3200-7000mAh packs! It's equipped with a 100-amp Spektrum Avian Smart ESC, plus the BNF Basic version also features an AR637TA+ receiver to deliver full-range real-time telemetry along with the benefits of enhanced AS3X+ and optional-use SAFE Select technologies.

## FEATURES

- Top speeds up to 110+ MPH with 4S and up to 140+ MPH with 6S batteries
- Compatible with 4S, 5S and 6S batteries from 3200-7000mAh to deliver a wide range of performance
- Extremely wide flight envelope from unexpectedly stable slow-flight to locked-in precision aerobatic capabilities and beyond
- Factory-installed high-RPM brushless outrunner motor plus APC 10x8E prop and an aluminium spinner
- Functional flaps for shorter takeoffs and landings plus improved slow-flight
- Larger, more reliable electric retracts with sprung wire struts
- Strong and easy to install/remove one-piece composite reinforced wing with hands-free servo connection system
- Bolt-on wing and stab for extremely quick and easy assembly/disassembly and for convenient storage/transport
- Higher-density EPO results in a stronger and stiffer airframe with a smoother, damage resistant finish
- Large and convenient, magnetically-secured top hatch and large battery compartment

## IN THE BOX

- (1) E-flite V1200 1.2m with:
- (6) Spektrum Digital, MG Servos
- (1) Spektrum Brushless Outrunner
- (1) Spektrum Avian 100-Amp Smart Brushless ESC
- (1) Spektrum AR637TA+ 6-Channel Receiver with AS3X+ and SAFE Select\*
- (1) Product Manual

## NEEDED TO COMPLETE

- BNF Basic**
- (1) Full-range 6-7+ channel Spektrum DSMX compatible transmitter
- PNP**
- (1) Full-range 6+ channel transmitter and receiver
- Both**
- 4S 14.8V or 6S 22.2V 3200-7000mAh LiPo with EC5 or IC5 Connector
  - (1) Compatible LiPo charger
